Career Development Services

Career Development Services (CDS) offers services to assist all ODU undergraduate and graduate students as well as alumni in learning career decision making, internal assessment and external exploration, reflection, world of work readiness, and job/internship/graduate program search skills. Teaching career readiness skills and an educational developmental philosophy are keys to students’ success as well as internships, networking, active career research, timely intentional involvement in each stage of career development, and meaningful student employment and internship engagement. A range of comprehensive services includes individual career counseling, career fairs, student employment, on-campus interviews, career classes, internship support, assisting in maximizing career outcomes (placement), workshops, outreach, in-class presentations, web content, and more. CDS has received national recognition for select programs, and staff provide national and regional leadership in the field. CDS has a Main Center as well as College/Regional and Cyber-based services.

The Student Employment Program is designed to assist students in locating on- or off-campus, part-time, or seasonal, or Federal Work Study (FWS) positions for those who qualify. Traditional on campus employment programs for students with Federal Work Study (FWS) include, the Student Temporary Assist Team (STAT), Community Service Internship Program (CSI), and the America Reads (AR) program. Students without FWS may qualify for hourly student employment positions. Career Development Services lists jobs of all types, including permanent full-time positions, through ODU CareerLink. This powerful interactive web-based system is available free to students and alumni of Old Dominion University. The CareerLink database contains employer information, career information, a career event calendar and interview schedules, as well as the means to electronically apply for positions posted. CareerLink is the primary tool used by Career Development Services to communicate with students about various career opportunities and events to help students succeed at Old Dominion University and into their careers.

Individual career consultations and electronic assessment tools as well as seminars on career exploration are available to assist in major and career path selection. Each college has an experienced professional CDS staff assigned to offer career development services to students at all levels. CDS maintains full service satellite offices in the Colleges of Arts and Letters, Business, Engineering and Technology, and Sciences, which house the CDS Liaison to that college. The Liaison for the College of Education operates a part-time center in conjunction with the College of Education's Career and Academic Resource Center. Hybrid satellite offices, providing assistance onsite live during published office hours and real-time virtual assistance at other times via electronic communication technology, provide services to students at the Virginia Beach, Tri-Cities and Peninsula Regional Centers.

Cooperative education and internship experiences are available at the junior, senior and graduate levels. These programs allow students to gain valuable experience related to their major, while testing out possible career choices. All students are encouraged to participate in one or more practical experiences.

Professional seminars in resume writing, job search strategies, interview skills, salary negotiation and other career-related topics are offered throughout the year and are also available in video streamed and on-line versions. These are complemented by classroom and group presentations and other special career events, including employer information sessions, as well as employer and alumni career information panels and etiquette dinners.

General job fairs are held twice a year and are supplemented by specialized fairs for specific populations, including a teacher fair, a graduate recruitment fair, and a summer job fair. Graduating students can also take advantage of the On-campus Recruiting Program, which provides the opportunity to interview, on campus, with employers for entry-level positions.

A new program on Career Decisions Values and You is offered to freshmen who are interested in learning more in depth about career decision making, exploring their decisions and discussing careers, values, and skills. The program offers a two-part session with an interest inventory and values and skills inventories for homework between the two sessions. Other new initiatives include development of an Employer Advisory Board and Employer Office Hours programs, career outcomes reporting, a Career Development 4 year Engagement Model, and collaborative working teams with partners to help students better identify their skills.

Many of the programs and services available on campus are also offered online and via video streaming through the CDS website, ODU CareerLink, and the Cyber Career Center. CDS has developed this exciting opportunity as part of the any-time, any-place virtual career center model for students and alumni who prefer or require assistance from a career professional through electronic means. The Cyber Career Center allows CDS staff to provide quality career assistance from a distance, replicating face-to-face services through interactive media and multiple electronic means of communication. The National Association of Colleges and Employers (NACE) recognized CDS for this initiative with the Chevron Corporation Award.

More information is available 24/7/365 Live by calling the Virtual Career Assistants at 800-937-ODU1 or virtually via the internet at http://www.odu.edu/cmc. Classes meeting the specifications for the guaranteed practicum are clearly noted in the Courses of Instruction section of this catalog as “(Qualifies as a CAP Experience).”
