Karen Karlowicz, Chair

The program leading to the Master of Science in Nursing is designed to prepare graduates with expertise in theory, research, and advanced nursing practice. Through academic courses and clinical experiences, graduate students are prepared to meet the present nationwide demand for nurses in advanced practice, leadership and education as well as to pursue doctoral study. The master’s program in nursing is fully accredited by the Commission on Collegiate Nursing Education.

Students in the program may specialize in a variety of roles. All specialties emphasize development of the nursing role through advanced theory and research. The program strives to instill in its graduates leadership responsibility, professional commitment, and a holistic approach to health and nursing care.

The number of credits required for the Master of Science in Nursing degree varies and reflects the number of hours in the core plus the hours required for certification in a specialty. The nurse anesthesia role option requires 82 credits. The family nurse practitioner role option requires 47 credit hours. There is a joint program with Shenandoah University in nurse midwifery that is 47 credits. Adult-Gerontology Clinical Nurse Specialist/ Educator program is 46 credits.

Post-master’s certificate programs for M.S.N. educated nurses to complete coursework leading to certification as a family nurse practitioner, adult gerontology clinical nurse specialist, nurse educator or nurse executive are available.

Admission to the Graduate Program

1. In addition to meeting University and college requirements, applicants must have:
   2. Completed a baccalaureate degree with an upper-division major in nursing from a National League for Nursing accredited college or university program, or Commission on Collegiate Nursing Education accredited college or university program or the equivalent.
   3. Demonstrated graduate potential by satisfactory scholastic achievement in the baccalaureate nursing program (grade point average of 3.00 on a 4.00 scale).
   5. Completed a health assessment component (undergraduate)
   6. Attained a satisfactory score on the Miller Analogies Test (MAT) or the Graduate Record Examination (GRE), taken within the past five years.
   7. A current license as a registered nurse.
   8. At least one year of recent clinical nursing experience. Applicants for the nurse anesthesia role must have at least a minimum of one year (2080 hours) of full time nursing experience in an intensive care unit within the 2 years prior to application.
   9. Presented three letters of professional reference, including one from the dean or a member of the nursing faculty in the baccalaureate program in nursing and two from the most recent employer.
   10. Completed the Supplementary Application for Admission to the Master of Science in Nursing Program, including the short essay (500 to 700 words) describing professional and academic goals, and how graduate study in nursing will contribute to the fulfillment of these goals.

An interview may be advised for prospective students. Students applying to the nurse anesthesia program should contact the director of the nurse anesthesia program at (757) 368-4171. For full consideration, applications for the nurse anesthesia program must be submitted by December 1 of the year prior to the August starting date.

Degree Requirements

In addition to general University requirements, the following apply to candidates for the Master of Science in Nursing degree:

1. Only degree-seeking students may take graduate nursing courses.
2. Full-time or part-time study is available for most roles. Part-time students are required to complete all program requirements within a six-year period. Some roles have only full-time programs. Contact the graduate nursing office regarding study options for each program at (757) 683-4298.
3. A written comprehensive examination covering the program of study is required by the final semester of study for students not electing to complete a thesis. A comprehensive examination in the role specialty is required for all postmaster’s students. A student must be registered in the semester the comprehensive exam is taken.
4. The student must make arrangements three months in advance to take a nursing course with a laboratory or practicum component to assure appropriate and available placement for the learning experience. Arrangements are made through the Student Clinical Services Coordinator.
5. The B grade (3.00) is the minimal acceptable grade for all courses with a NURS or NURA prefix or any course required for the degree for continuation in the master’s program. Satisfactory performance in the laboratory or practicum component of a nursing course is required. Students achieving less than a B grade (3.00) in a nursing course may request an opportunity from the role graduate program director to repeat the course once. Two course failures will result in termination from the nursing program. Students may not progress with an incomplete in prerequisite courses as listed in the curriculum plan.

Additional requirements such as physical exams, CPR certification, immunization requirements, professional liability insurance, computer competencies and technical standards and background checks for the School of Nursing are also available in the Nursing Student Handbook and on the School of Nursing web page.

Master of Science in Nursing – Family Nurse Practitioner Role

Micah Scott, Graduate Program Director

The family nurse practitioner (FNP) role prepares graduate students to provide a full range of primary care services to individuals and families throughout the life span. In collaboration with other health care professionals, graduate students provide health promotion, health maintenance and restorative care to well, at-risk, and chronically ill clients and their families. Student clinical experiences are provided in a variety of primary care settings. Successful completion of the program qualifies students to register for the AANP or ANCC examination for certification as a family nurse practitioner.

Degree Requirements

Full-time curricula are available. No FNP course may be taken unless admitted to the FNP program. Unless specifically stated, all courses in the previous semester must be completed before taking courses in the subsequent semesters. Course work must be completed according to the full-time curriculum. The following courses are prerequisites to all FNP content course and clinical courses.

**Master of Science in Nursing – Nurse Anesthesia Role**

Nathaniel Apatov, Graduate Program Director

The Master of Science in Nursing program in nurse anesthesia is an 82-credit, 28-month program beginning in late August. During the first year, the program is designed to introduce students to the basic theoretical knowledge and skills necessary for advanced nursing practice in nurse anesthesia. The first 12 months of the program are primarily didactic. The last 16 months of the program are the clinical component comprised of both general and regional anesthesia techniques for surgery and clinical specialties such as eyes, ears, nose and throat, neurosurgery, vascular surgery, open heart, obstetrics, trauma, and organ transplants. During this phase of the program, the student returns to the classroom on a weekly basis for extensive clinically related study.

Upon successful completion of the 28-month program, the graduate receives the M.S.N. degree, and becomes eligible to write the National Certifying Examination for Nurse Anesthetists given by the Council on Certification of Nurse Anesthetists. Graduates successfully completing this exam become Certified Registered Nurse Anesthetists (CRNAs).

A prerequisite for enrollment in the first year first semester is degree seeking status and admission to the MSN-Nurse Anesthesia track. Successful completion of courses in the previous semester is a prerequisite for enrollment in the next semester. All courses within a semester are corequisites and must be taken together.

**Nurse Anesthesia Full Time Curriculum**

First Semester (Fall)
NURS 611  Research Design  3
NURS 646  Structure and Function for Advanced Nursing Practice I  3
NURA 660  Pharmacotherapeutics for the Nurse Anesthetist  3
NURA 650  Medical Physical Sciences  3
NURA 654  Professional Aspects of Anesthesia  3

Second Semester (Spring)
NURS 610  Theoretical Foundations for Nursing Practice  3
NURS 647  Structure and Function for Advanced Nursing Practice II  3
NURA 651  Pharmacology of Anesthesia Drugs  4
NURA 652  Principles of Anesthesia Practice I  4

Third Semester (Summer)
NURA 653  Principles of Anesthesia Practice II  4
NURA 754  Anesthesia Practicum  4
NURS 648  Disease Processes for Advanced Practice  3
NURS 671  Advanced Physical Assessment  1
NURS 672  Advanced Physical Assessment Laboratory  1

**Master of Science in Nursing - Adult Gerontology Clinical Nurse Specialist/Educator Role**

Debra Murray, Graduate Program Director

The School of Nursing offers a curriculum leading to the degree of Master of Science in Nursing with an advanced practice area of Adult Gerontology Clinical Nurse Specialist/Educator. The program of study prepares students as expert clinicians in the application of evidence-based knowledge within the realms of nursing interventions, teaching and research. Students also receive preparation as nurse educators, and are therefore dually prepared for clinical and academic roles.

The program requires course content in theory, research, education, Adult Gerontology CNS professional and clinical cores, and the advanced practice area with a selected secondary focus. Applicants are admitted for either full-time or part-time study and can begin in fall. The curriculum is designed to prepare nurses as Adult Gerontology Clinical Nurse Specialists with a secondary clinical focus in an area of their choice. Graduates of this program are eligible to sit for the American Nurses’ Association (ANCC) Adult Gerontology Clinical Nurse Specialist Certification Exam.

**Adult Gerontology Clinical Nurse Specialist/Educator Full Time Curriculum**

First Semester (Fall)
NURS 610  Theoretical Foundations for Nursing Practice  3
NURS 670  Advanced Pathophysiology  3
NURS 671  Advanced Physical Assessment  1
NURS 661  Pharmacotherapeutics for Primary Health Care Providers  3

Credit Hours 10

Second Semester (Spring)
NURS 611  Research Design  3
NURS 638  Adult-Gerontology Clinical Nurse Specialist I: Introduction to Practice  2
NURS 639  Adult-Gerontology Clinical Nurse Specialist Practicum I: Role Socialization  3
NURS 615  Ethical Concepts and Issues in Advanced Practice Nursing  2
**NURS 630**  Nursing Curriculum Design and Program Evaluation  3

**Credit Hours**  13

**Third Semester (Summer)**

**NURS 656**  Adult-Gerontology Clinical Nurse Specialist II: Transition to Practice  2

**NURS 657**  Adult-Gerontology Clinical Nurse Specialist Practicum II: Role Transition  3

**NURS 676**  Professional, Ethical and Legal Concepts of Nursing Education  3

**NURS 621**  Aging in the 21st Century  3

**Credit Hours**  11

**Fourth Semester (Fall)**

**NURS 732**  Health Care Populations, Diversity and Outcomes  3

**NURS 632**  Instructional Delivery Methods and Learner Assessment  3

**NURS 634**  Nurse Educator/Faculty Internship I Classroom Instruction  2

**NURS 703**  Adult-Gerontology Clinical Nurse Specialist Practicum III: Role Synthesis  3

**NURS 690**  M.S.N. Comprehensive Examination  0

**Credit Hours**  11

**Total Credit Hours**  45

**Master of Science in Nursing - Nurse Midwifery (cooperative program with Shenandoah University)**

Kathleen Putnam, ODU Graduate Program Director

Juliana Fehr, Shenandoah University Coordinator

Due to the limited availability of clinical placements for Certified Nurse Midwifery students, Shenandoah University has decided not to accept any new students to this program until 2016. Contact the ODU Graduate Program Director for this track for additional information.

The Master’s in Nursing, with specialization in nurse midwifery, is a joint program with Shenandoah University. The two-year program includes advanced practice nursing content offered by Old Dominion University in the Hampton Roads region at eight distance sites in Virginia during the first year. The second year in the midwifery program is at Shenandoah University. The Master of Science in Nursing is awarded by Old Dominion University and a certificate of midwifery specialty is awarded by Shenandoah University. Graduates are eligible to take the national midwifery certification examination. The program may be completed as a full-time or part-time program.

**Nurse Midwifery Full Time Curriculum**

**First Semester (Fall) (ODU)**

**NURS 610**  Theoretical Foundations for Nursing Practice  3

**NURS 661**  Pharmacotherapeutics for Primary Health Care Providers  3

**NURS 670**  Advanced Pathophysiology  3

**NURS 695**  SU Nursing (Advanced Nurse-Midwifery Role Development)  7

**Total Hours**  47

**BS-MSN-DNP: Nurse Executive**

Carolyn Rutledge, Graduate Program Director

The BS-MSN-DNP program prepares students with the knowledge and skills to move into leadership positions within hospitals and healthcare organizations. The program focuses on the American Organization of Nurse Executive (AONE) guidelines for executive practice as well as the AACN DNP Essentials. The course content focuses on leadership skills, fiscal and human resource management, working with vulnerable populations, magnet achievement, organizational research, and emerging technologies. Students participate in practicum experiences throughout the program. Students are eligible to take the national AONE certifying exam upon completion.

**BS-MSN-DNP Full Time Curriculum**

**First Semester (Spring)**

**NURS 780**  Financial Issues in Nursing Administration  3

**NURS 740**  Strategic Leadership  3

**NURS 717**  Strategic Leadership Practicum  3

**Second Semester (Summer)**

**NURS 735**  Organizational and Management Theory  3

**NURS 716**  Organizational Leadership Practicum  3

**NURS 709**  Evidence-Based Research and Theories for Nursing Practice  3

**Third Semester (Fall)**

**NURS 718**  Practicum Immersion for Novice Nurse Executives  3

**NURS 615**  Ethical Concepts and Issues in Advanced Practice Nursing  2

**MPHO 612**  Statistical Reasoning for Public Health  3

**Fourth Semester (Spring)**

**NURS 810**  Leadership in Complex Systems and Organizations  3

**NURS 800**  DNP I: Introduction to Healthcare Disparities, Vulnerable Populations, and Epidemiology  2

**NURS 805**  Application of Practice-Based Research Methods  2

Old Dominion University  3
Post-Master’s Certificate Programs

Certificate programs are designed to provide Master of Science in Nursing educated registered nurses with the knowledge and skills needed to register for an examination to certify as a family nurse practitioner or adult gerontology clinical nurse specialist. Individual programs of study are developed based upon the applicant’s previous advance practice education. A Nurse Educator certificate program is also available for individuals with a graduate degree in nursing who desire to develop their knowledge and skill for teaching in a nursing education program. A written comprehensive examination in the role specialty is required for all postmaster’s students. A student must be registered in the semester the comprehensive exam is taken.

Nurse Educator Certificate

The Nurse Educator Certificate program is designed to offer nurses with at least one graduate degree in nursing the opportunity to earn academic credit while gaining valuable knowledge and practical experience related to teaching in entry-level or graduate nursing education programs.

Nurse Executive Certificate/Health Science Executive Certificate

Carolyn Rutledge, Graduate Program Director

This program is designed for students to develop competency in serving in a nurse executive or MBA role with a health science focus within healthcare organizations, hospitals and ambulatory care settings. The core courses in this program cover the basic knowledge of Informatics, Leadership, Evidence-Based Management, and Competitive Resources Design and Utilization.

Doctor of Nursing Practice (DNP) – Nurse Executive (Post-Master’s)

Carolyn Rutledge, Graduate Program Director

The Doctor of Nursing Practice (DNP) degree will provide additional education for advanced practice nurses in:

1. Advanced diagnostics and practice skills;
2. Care of the underserved and increasingly diverse population; and
3. Incorporation of emerging care technologies. The program may be completed as a full-time or part-time student and is distance friendly.

In order to graduate from Old Dominion University’s DNP Program, a student must have successfully completed all 36 post-masters credit hours of required course work, including an evidence-based capstone project and all clinical practica. It will take a full-time student four semesters (spring, summer, fall and spring) to complete the program. A part-time student will complete the DNP program in seven semesters (spring, summer, fall, spring, summer, fall, and spring.)
