**Career Development Services**

Career Development Services (CDS) offers services to assist all ODU undergraduate and graduate students as well as alumni in learning career decision making, internal assessment and external exploration, reflection, world of work readiness, and job/internship/graduate program search skills. Teaching career readiness skills and an educational developmental philosophy are keys to students’ success as well as internships, networking, active career research, timely intentional involvement in each stage of career development, and meaningful student employment and internship engagement. A range of comprehensive services includes individual career counseling, career fairs, student employment, on-campus interviews, career classes, internship support, assisting in maximizing career outcomes (placement), workshops, outreach, in-class presentations, web content, and more. CDS has received national recognition for select programs, and staff provide national and regional leadership in the field. CDS has a Main Center as well as College/Regional and Cyber-based services.

The Student Employment Program is designed to assist students in locating on- or off-campus, part-time, or seasonal, or Federal Work Study (FWS) positions for those who qualify. Traditional on campus employment programs for students with Federal Work Study (FWS) include, the Student Temporary Assist Team (STAT), Community Service Internship Program (CSI), and the America Reads (AR) program. Students without FWS may qualify for hourly student employment positions. Career Development Services lists jobs of all types, including permanent full-time positions, through ODU CareerLink. This powerful interactive web-based system is available free to students and alumni of Old Dominion University. The CareerLink database contains employer information, career information, a career event calendar and interview schedules, as well as the means to electronically apply for positions posted. CareerLink is the primary tool used by Career Development Services to communicate with students about various career opportunities and events to help students succeed at Old Dominion University and into their careers.

Individual career consultations and electronic assessment tools as well as seminars on career exploration are available to assist in major and career path selection. Each college has an experienced professional CDS staff assigned to offer career development services to students at all levels. CDS maintains full service satellite offices in the Colleges of Arts and Letters, Business, Engineering and Technology, and Sciences, which house the CDS Liaison to that college. The Liaison for the College of Education operates a part-time center in conjunction with the College of Education's Career and Academic Resource Center. Hybrid satellite offices, providing assistance onsite live during published office hours and real time virtual assistance at other times via electronic communication technology, provide services to students at the Virginia Beach, Tri-Cities and Peninsula Regional Centers.

Cooperative education and internship experiences are available at the junior, senior and graduate levels. These programs allow students to gain valuable experience related to their major, while testing out possible career choices. All students are encouraged to participate in one or more practical experiences.

Professional seminars in resume writing, job search strategies, interview skills, salary negotiation and other career-related topics are offered throughout the year and are also available in video streamed and on-line versions. These are complemented by classroom and group presentations and other special career events, including employer information sessions, as well as employer and alumni career information panels and etiquette dinners.

General job fairs are held twice a year and are supplemented by specialized fairs for specific populations, including a teacher fair, a graduate recruitment fair, and a summer job fair. Graduating students can also take advantage of the On-campus Recruiting Program, which provides the opportunity to interview, on campus, with employers for entry-level positions.

A new program on Career Decisions Values and You is offered to freshmen who are interested in learning more in depth about career decision making, exploring their decisions and discussing careers, values, and skills. The program offers a two-part session with an interest inventory and values and skills inventories for homework between the two sessions. Other new initiatives include development of an Employer Advisory Board and Employer Office Hours programs, career outcomes reporting, a Career Development 4 year Engagement Model, and collaborative working teams with partners to help students better identify their skills.

Many of the programs and services available on campus are also offered online and via video streaming through the CDS website, ODU CareerLink, and the Cyber Career Center. CDS has developed this exciting opportunity as part of the any-time, any-place virtual career center model for students and alumni who prefer or require assistance from a career professional through electronic means. The Cyber Career Center allows CDS staff to provide quality career assistance from a distance, replicating face-to-face services through interactive media and multiple electronic means of communication. The National Association of Colleges and Employers (NACE) recognized CDS for this initiative with the Chevron Corporation Award.

More information is available 24/7/365 Live by calling the Virtual Career Assistants at 800-937-ODU1 or virtually via the internet at http://www.odu.edu/cms. Guaranteed Practicum and Career Advantage Program

Old Dominion University is the only four-year, doctoral-granting institution in the United States to guarantee a practical, faculty-directed, for-credit experience related to a student’s major. The Guaranteed Practicum was introduced in 1995 and is administered by Career Development Services (CDS) as part of the Career Advantage Program (CAP) in partnership with the academic colleges.

The practicum, a practical work experience, may take the form of an internship, cooperative education experience, clinical rotation, student teaching, or a class containing a real-world, hands-on project or experience, as appropriate for each college and its majors. Classes meeting the specifications for the guaranteed practicum are clearly noted in the Courses of Instruction section of this catalog as “(Qualifies as a CAP Experience).”

The Guaranteed Practicum is the centerpiece of the Career Advantage Program. For more information on CAP, see the Career Development Services section of this Catalog.

Center for Major Exploration (CME)

The primary purpose of CME is to assist students who have not selected a major upon entry to the University or who want to explore a new major at some point during their college career. This assistance is provided through individual advising and major/career exploration. The staff is concerned with supporting students in developing and evaluating their academic and career plans and providing services to enhance students’ academic and future career success. CME advisors work with students to identify their skills, interests, and values, in order to match them with a major that is compatible with their strengths and preferences. CME staff work collaboratively with staff in Career Development Services to offer additional programs and services throughout the year that address a variety of topics related to academic success, choosing a major, and career development. CME advisors teach a one-credit career and major exploration course, UNIV 120, which provides students with a structured exploration of majors and careers and is open to any student at the University during their first two years. CME advisors also provide information for students regarding academic policies and procedures, as well as information about other student services and administrative offices at the University. The Center for Major Exploration is located in 1500 Webb Center on the first floor in the North Mall; the phone number is 757-683-4805 and the website can be found at http://www.odu.edu/success/academic/majorexploration.

CME uses a sequential, three-step process during a student’s first semester to assist the student with deciding on a major:

1. Initial Interview – Provides an opportunity for the advisor and student to get to know each other and begin the process of exploration and discovery
2. Decision-Making Workshop – Teaches students to identify and implement good decision-making skills, as well as the process of making a thoughtful and informed major choice
3. Advising/Major Exploration Appointment – In this appointment, students work with their advisor to identify appropriate courses for the next semester that will fulfill University requirements, while assisting them in moving toward their chosen major or allowing them to explore an area of interest.

Students will stay with their CME advisor until they have chosen a major, at which point they will be referred to the appropriate major advisor.

ITS provides, maintains, and/or manages the following systems and services University-wide:

- Computing accounts for faculty, staff and students
- Academic & instructional systems
- Administrative computing systems
- Data & telecommunications networks
- High-speed wired and wireless Internet connectivity
- MonarchVision (Cable TV)
- Media technology equipment in support of academic and University-related activities

Detailed information about these services is provided in the following paragraphs. Additional information about all computer services at Old Dominion University can be found on the ITS website at http://www.odu.edu/its.

**Computer Accounts**

ITS provides students with a MIDAS account (Monarch Identification and Authorization System). MIDAS is the identity and password management system for the University. A MIDAS ID and password provide access to the University’s integrated technology services such as e-mail, course management systems, the myODU Portal, video streaming courses and many other important resources.

Creating a MIDAS account
The account is created from the MIDAS website at http://midas.odu.edu. During the creation process, a security profile is established to allow the account holder to create a new password in case it is forgotten. After the account is created, email access will be available immediately, but access to other University services and resources may require an additional 24-48 hours.

myODU Portal

The myODU Portal, located at http://my.odu.edu, provides University faculty, staff and students a single point of access to their University services. Individuals may customize their portal page with links to the resources they access most frequently, including Blackboard, Leo Online, University-wide announcements, and Internet-based University email, address book and calendar.

Student Email Accounts

Student email accounts are activated automatically as part of the MIDAS account creation process. Student email accounts are provided through Gmail and serve as a vital communication link between students and University administrators, departments and faculty members. It is the official electronic mail system for University-related communications, policies, announcements, tuition bills and other information. Student email access is available via the myODU portal at http://my.odu.edu. Students can also access their email account at http://monarchs.odu.edu.

The Residential Network (ResNet)

ResNet is managed by ITS and provides students living in the University residence halls and the University Village apartments with high-quality data (wired and wireless), voice and video services. This program is supported by professional and student staff that provide technological services and support for high-speed Internet access, cable television (MonarchVision), and personally owned computers and mobile devices. Wired Internet connections are provided in the residence halls to allow each resident an individual connection that can be activated at the student’s request. Students may also request local phone service if desired.

Computer Labs

ITS maintains University computer labs equipped with Windows and Macintosh systems and various computer applications in support of class requirements. Laser printing is available in all labs as well as remote printing in academic buildings and residence halls. Students must have a University MIDAS account (see section on Computer Accounts) to use the computers in the labs. Labs are located in Webb Center, Virginia Beach Higher Education Center, Peninsula Higher Education Center and Tri-Cities Higher Education Center. Additional computing resources are also available in the Learning Commons as well as some academic buildings and residence halls. Lab schedules are available on the ITS website at http://www.odu.edu/ts/labs-classrooms. IT consultants are available in all labs to provide assistance with application and computer-related questions and problems.

Virtual Computing

ODU offers two virtual computing environments. The Virtual Computer Lab (VCL) provides students with 24-hour computer access to the specific operating system and applications they need for their coursework. The system, available through any Internet connection, has all the widely used applications at the University such as SAS, Matlab, SPSS, GIS and others. Alternatively, the Monarch Virtual Environment (MOVE) allows access to standard lab computers from any Internet-enabled device, including a smartphone or tablet. A University MIDAS account (see section on Computer Accounts) is required to access either virtual environment. Please visit http://www.odu.edu/ts/labs-classrooms/virtual for more information.

Personal Computers on Campus

Old Dominion University has established minimum technological requirements that student computers must meet in order to effectively use the information technology resources offered at the University. It is strongly recommended that students have a notebook computer that at least meets the University’s minimum technical specifications.

Mobile Monarch is a student notebook program at ODU that offers educational pricing for Apple and Dell computers. Computers in the program have been selected to meet the requirements of the University’s academic computing environment. Program notebooks are purchased at the University Village Bookstore and are typically business class systems with reliable standard components. The computers are sold with up to a four-year warranty. An on-campus support center is available to provide support services, including warranty repairs.

Academic Software/Instructional Systems

- Software for Download - Through the University’s software licensing program, current versions and upgrades of McAfee Virus Scan software for Windows and Mac are available for students to download, free of charge, to their personal computers. Students can also download additional instructional software, such as EndNote and X-WIN 32. Visit the ITS Software and Services Catalog at http://www.odu.edu/its/software-services to download software.

- Web Conferencing - ODU offers web conferencing and collaboration tools that allow students and faculty to conduct same-time meetings and presentations. International Programs

Marcelo Siles, Executive Director

The Office of International Programs (OIP) coordinates activities that focus on Old Dominion University’s strategic commitment to campus-wide internationalization. These activities fall into three general categories, all of which are designed to expand student understanding of our interdependent world: encouraging the incorporation of international issues and perspectives into undergraduate and graduate education; facilitating international exchange of students and faculty; and sharing international interests and expertise with the broader Hampton Roads community that Old Dominion University seeks to serve. For more detailed information, visit the OIP website at www.odu.edu/oip.

OIP facilitates the development of the University’s cooperative agreements and exchange programs with other institutions of higher learning around the world in order to encourage exchange of students and faculty as well as collaborative research. OIP staff provide advising support for international fellowships, such as the Fulbright, Boren Awards, and the Gilman International Scholarship Program.

OIP sponsors and coordinates international programs that serve and involve the citizens of the region and the state. These may include appearances by foreign diplomats, scholars and artists, workshops for teachers and other professionals, and support for internationally-focused community organizations.

OIP includes the Office of Study Abroad and International Student and Scholar Services.

The English Language Center, which provides effective, quality instruction of English for non-native speakers, is located in the College of Continuing Education and Professional Development. Please refer to the College of Continuing Education and Professional Development (http://www.odu.edu/cedp) for additional information.

of study abroad experiences as an integral part of their college education. Faculty-led programs of study in the summer and over spring break are available in different subject areas (from Service Learning in South Africa to Theatre in London to Business Studies in Korea and China). Semester and academic year study abroad programs and reciprocal student exchange programs offer long-term opportunities in virtually all areas of the world. Old Dominion is a member of study abroad consortia that sponsor high quality programs around the globe, providing opportunities for exchange with over 100 universities overseas. Regardless of one’s field of study, almost all Old Dominion students can study abroad. Practically all forms of student financial aid may be applied to an academic program abroad, and travel grants are available for many programs. Dean’s Education Abroad Awards are ODU scholarships that provide special support for selected majors. Internships, volunteer placements and short-term work opportunities overseas are additional options.

The Office of Study Abroad administers overseas academic programs and authorizes transfer credit from approved programs of study. OSA houses resources on study abroad opportunities and general reference materials on international travel, scholarships, internships and work abroad opportunities. A Study Abroad Fair is held every semester, and pre-departure orientation programs and “re-entry” sessions when students return from abroad are also organized by the staff. Please visit the OSA’s web site at www.odu.edu/studyabroad.
