RMI - Risk Management and Insurance

RMI 317 Principles of Risk Management and Insurance (3 Credit Hours)
Recommended elective for non-business as well as business majors. The primary focus of this introductory course is on evaluating life, health, retirement, property, liability and personnel exposures to loss and analyzing the methods for managing these risks. Risk management and insurance techniques for dealing with potential losses to individuals and organizations will be emphasized. Classwork and a group project will also cover emerging risks, such as cyber risk, and technologies disrupting the industry. Students receiving a B or better in this course can have it count as the CPCU 500 course of the Chartered Property-Casualty Underwriter (CPCU) professional designation.
Prerequisites: A declared major in the University or permission of the Dean’s Office of the Strome College of Business

RMI 367 Cooperative Education (1-6 Credit Hours)
Available for pass/fail grading only. May be repeated for credit up to a maximum of 6 credits. Approval for enrollment and allowable credits are determined by the risk management and insurance advisor and Career Development Services in accordance with the policy for granting credit for Cooperative Education programs.
Prerequisites: A declared major in the University or permission of the Dean’s Office

RMI 368 Insurance Internship (1-3 Credit Hours)
A faculty supervised, professionally oriented project. Approval for enrollment and allowable credits is determined by the Risk Management advisor. A transfer student must have completed one semester at Old Dominion University.
Prerequisites: A declared major in risk management and approval of the Risk Management advisor

RMI 370 Health Insurance (3 Credit Hours)
This course covers the principles and practice of individual and group life and health insurance. It uses a broad-based financial planning approach to consider the nature and importance of individual and group health and property risks and uses of individual life and health insurance in treating these risks. The implications of various legal, tax, and accounting considerations on businesses and individuals are discussed. The course also provides an overview of the operational aspects of life insurers, including organization, underwriting, actuarial, reinsurance, marketing, investment, taxation, and accounting functions. Cases are employed.
