RT - Recreational Therapy

RT 210 Leisure, Health, and Wellness (3 Credit Hours)
This course focuses on the concept of leisure and its impact on health and wellness for individuals and groups. Fundamental principles, philosophies, and theories of leisure, health, and wellness are emphasized. Leisure’s relationships with physical, cognitive, social, emotional, and spiritual growth, human satisfaction, and quality of life are explored. Leisure’s influence on challenges to wellness experienced by diverse populations (e.g., individuals with disabilities, older adults, racial and ethnic groups, individuals identifying as LGBTQIA++) is examined. Strategies for protecting and promoting health through leisure are integrated throughout the course.

RT 261 Foundations of Recreational Therapy Practice (3 Credit Hours)
This course is designed to be an introduction to the historical and conceptual roots of recreational therapy. Content includes recreational therapy service delivery models, legislation, professional organizations, places of practice, ethical conduct, and credentialing procedures.

RT 290 Professional Preparation in Recreational Therapy (3 Credit Hours)
This course is designed to facilitate personal exploration and professional preparation for careers in recreational therapy. Topics include professional ethics, professional involvement, professional behaviors & responsibilities, and career preparation. On-site observation of recreational therapists in practice settings is required.

Prerequisites: RT 261 or PRTS 261

RT 366 Internship Preparation (1 Credit Hour)
This course is designed to provide students with the skills and knowledge required to successfully acquire an internship placement in recreational therapy. Emphasis will be placed on resume and cover letters, internship search strategies, interviewing skills, and internship documentation requirements. Students are required to become familiar with all documentation requirements in the Recreational Therapy Internship Manual, and successfully secure an internship for the following semester.

Prerequisites: RT 261 or PRTS 261, senior standing, and a recreational therapy major or minor

RT 368 Junior Internship (3 Credit Hours)
This course requires a 200-hour junior internship experience at an approved health and human service agency in which students are involved with ongoing recreational therapy programs. Students are expected to observe and assist recreational therapy staff during this field experience. Students must be supervised by a Certified Therapeutic Recreation Specialist (CTRS) working for the agency.

Prerequisites: Junior standing, RT 261/PRTS 261, RT 290/PRTS 290, RT 420/PRTS 420, RT 450/PRTS 450, and a declared Recreational Therapy major

RT 420 Intervention Techniques in Recreational Therapy (4 Credit Hours)
This course is designed to introduce students to a wide variety of Recreational Therapy interventions. Students will explore physical, cognitive, and psychosocial interventions. Facilitation techniques, activity modification, and group facilitation will be explored. Students will connect diagnostic groups to specific Recreational Therapy interventions. Students will facilitate group recreational therapy interventions during lab.

Prerequisites: RT 261 or PRTS 261, recreational therapy major or minor, and junior or senior standing

RT 430 Assessment, Documentation, and Evaluation in Recreational Therapy (3 Credit Hours)
This course will provide students with a detailed examination of assessment, documentation, and evaluation procedures used in the recreation therapy treatment process. Course focus includes the assessment and documentation process, including instrument design, selection, and implementation, and the reporting and use of data for treatment planning and program evaluation.

Prerequisites: RT 261 or PRTS 261, recreational therapy major or minor, and junior or senior standing

RT 450 Diagnostic Groups in Recreational Therapy (3 Credit Hours)
This course is designed to introduce students to a variety of disabilities, illnesses, and health conditions recreational therapists may encounter in practice. The prevalence, etiology, diagnostic criteria, pathology, symptomatology, and prognosis of various conditions is presented, and the bio-psycho-social impact of the illness/disability on the individual and family is discussed. Emphasis is placed on the delivery of recreational therapy services for individuals with illnesses/disabilities and related populations.

Prerequisites: RT 261 or PRTS 261, recreational therapy major or minor, and junior or senior standing

RT 460 Administration of Recreational Therapy Services (3 Credit Hours)
This course explores the basic principles of organizing and managing quality recreational therapy services. Content includes supervisory and administrative responsibilities, budgeting, managing personnel including student interns and volunteers, developing a clinical supervision program, marketing recreational therapy services, and developing a recreational therapy department based on professional standards of practice and recreational therapy models of service delivery.

Prerequisites: RT 261 or PRTS 261, recreational therapy major or minor, and junior or senior standing

RT 468 Senior Internship (12 Credit Hours)
This capstone course requires a 560-hour and 14-week senior internship experience at an approved health and human service agency practicing recreational therapy. Students will apply academic learning and will demonstrate competencies associated with entry-level practice in recreational therapy. The student’s academic and agency direct supervisors must be Certified Therapeutic Recreation Specialists.

Prerequisites: Senior standing and permission of instructor

RT 470 Recreational Therapy Program Design and Implementation (3 Credit Hours)
This skill-based course is designed to further students’ practical understanding of client-centered recreational therapy program design and implementation using evidence-based strategies, techniques, and interventions. Emphasis is placed on the purpose, roles, and outcomes of recreational therapy service delivery in healthcare and community settings. Topics include assessment, recreational therapy practice models, specific program planning, task analysis, facilitation techniques, implementation of evidence-based interventions, documentation, and evaluation of services as well as interprofessional practice. Field-based application of course concepts is required.

Prerequisites: RT 261 or PRTS 261, recreational therapy major or minor, and junior or senior standing

RT 480W Evidence-Based Practice and Trends in Recreational Therapy (3 Credit Hours)
This course provides an overview of evidence-based practice and related disciplinary writing in recreational therapy contexts. Through exploration of current trends and issues in the field of therapeutic recreation and a writing intensive approach, students develop skills in evaluating and interpreting research and applying applicable findings through evidence-based practice, service to the field, and professional advocacy. This is a writing intensive course.

Prerequisites: ENGL211C/ENGL 221C/ENGL 231C, RT 261 or PRTS 261, declared recreational therapy major, and junior or senior standing
RT 497  Independent Study  (1-3 Credit Hours)
Individualized instruction to include research, specialized studies, or other scholarly writing.
Prerequisites: Declared recreational therapy major and permission of instructor
