

Master of Science Maritime Trade and Supply Chain Management (MS)

Graduate Program Director (TBA)

The Master of Maritime Trade and Supply Chain Management is a graduate program that provides managers and supply chain professionals the opportunity to expand their knowledge, update their skill sets, and enhance their work with supply chain partners, transportation carriers, shippers, sourcing agents, warehouse managers, as well as third parties and governments directly or indirectly involved in the movement of cargo and material flow. The **30-credit hour** program requires critical thinking and investigation in maritime and supply chain industries, including analyses of worldwide port networks and supply chains that contribute to enhanced productivity. *This program is available on-campus and online.*

Admission Requirements

Prospective students may apply for admission to the program for the fall, spring, and summer semesters. We welcome applicants who have earned bachelor's degrees from accredited institutions. Admission to the program is competitive and is granted only to those who show high ability and likely success in graduate study. Successful applicants will stand well above the average in most of the criteria used to measure graduate student promise.

To be considered for admission, students must submit the following:

- A bachelor's degree from a regionally-accredited university in the U.S. or an equivalent foreign institution;
- Official copies of transcripts of all colleges and universities attended;
- Two letters of recommendation from individuals familiar with the applicant's professional and/or academic background;
- A current resume;
- A statement of professional goals;
- Completion of GRE or GMAT; a waiver may be available for those who already have successfully completed a graduate degree or certificate, or those who have an undergraduate GPA ≥ 3.0 , or those who have taken the prerequisite course(s) determined and approved by the director of the program; and,
- English language requirements: TOEFL (IBT): 79, TOEFL (paper-based): 550, IELTS: 6.5 for those whose native language is not English (waived if an applicant has earned a college degree from an institution in an English-speaking country).

Students may be considered for conditional admission. Contact the Graduate Program Director for more information.

Application Deadlines

Fall Semester

Domestic Students - June 15th
International Students - May 15th

Spring Semester

Domestic Students - November 1st
International Students - October 1st

Curriculum Requirements

The program has been designed to address the advanced educational needs of students and employers in the area of maritime trade and supply chain studies. This proposed program consists of 30 credit hours: five core courses (15 credit hours), four electives (12 credit hours), and one capstone course (3 credit hours).

The five core courses focus on the analysis of international shipping, supply chain management, port planning and competition, and maritime-related organizations. They also cover forward and reverse logistics, warehouse and material management, global sourcing and supply management, buyer-supplier relationships, port operator costing and pricing, and port carriers and shippers. Finally, the curriculum includes international trade theory and commercial policy.

The four electives provide students with opportunities to learn about advanced information technology tools that are important components of global supply chain, as well as data science and analytical skills. Other options in this category include admiralty law, supply chain and maritime security and risk management.

The capstone course addresses strategic management of maritime trade and supply chain management. The course brings together students in their final semester of study to synthesize knowledge from their previous coursework in order to better understand the relationships among the various areas of maritime trade and supply chain management and impacts on supply chain and maritime industry.

The list of courses—all existing—include the following:

Foundation Courses *

MBA 600	Introduction to Statistics	
BNAL 606	Statistics for Managers	
OPMT 615	Operations & Supply Chain Management	

Core Courses

MSCM 641	Supply Chain Management and Logistics	3
PORT 611	International Maritime Transport	3
PORT 612	Port Operations and Management	3
PORT 616	Reverse Logistics and Sustainable Operations	3
BNAL 721	Simulation Modeling for Business and Supply Chain Systems	3

Business Analytics Courses - Select Two of the Following: 6

BNAL 532	Predictive Analytics for Business	
BNAL 507	Prescriptive Analytics of Management Science	
ECON 650	International Economics	
IT 564	Essentials of Project Management	
IT 650	Database Management Systems	
IT 651	Business Intelligence	
IT 660	Digitalizing Enterprises	

Approved Electives 6

Electives must be approved in advance by the Graduate Program Director **

Select two of the following:

BNAL 721	Simulation Modeling for Business and Supply Chain Systems	
ECON 502	Transportation Economics	
IT 650	Database Management Systems	
IT 651	Business Intelligence	
IT 660	Digitalizing Enterprises	
MSCM 530	Strategic Sourcing and Purchasing Management	
MSCM 568	Distribution Center and Material Handling Management	
PORT 612	Port Operations and Management	
PORT 613	International Maritime and Admiralty Law	
PORT 615	Maritime Security and Risk Analysis	
PORT 617	Transportation Management	
PORT 619	Marine Insurance	
PORT 668	Directed Research/Port Internship	
or PORT 695	Selected Topics in Maritime and Port Management	

or PORT 697	Independent Study	
PPCM 726	Introduction to Public Procurement	****/****
or PPCM 718	Public Sector Contract Administration	
or PPCM 728	Public Sector Contract Planning and Formation	
Capstone Course		
PORT 610	International Shipping and Supply Chain Management	3
Total Credit Hours		30

- * The foundation courses are not obligatory for individuals who can demonstrate satisfactory equivalent preparation either at the undergraduate or graduate levels, or through relevant training sessions. The determination of the foundation course requirement is made by the faculty adviser at the time of admission, ensuring personalized guidance based on each student's specific needs and qualifications.
- ** Electives must be approved by the Graduate Program Director.
- *** Students are allowed to take PPCM 726, PPCM 718, or PPCM 728 with the approval of the director of the PPCM program and the director of the MS in Maritime Trade and Supply Chain Management.
- **** Students can take one of the three PPCM courses (PPCM 726, PPCM 718, or PPCM 728) as an approved elective to be applied to the degree work.

Additional Requirements

Continuance

To remain in good standing after admission to the program, students must maintain a minimum, cumulative grade point average of 3.0 in all graduate course work attempted at the University. Students who fall below this minimum standard will have 12 credit hours to remedy this deficiency.

Additionally, students may earn no more than 2 courses with a grade of C or lower. Further, any student receiving a failing grade (F) in a course will be dismissed from the program.

Financial Assistance

Financial aid is available to graduate students at Old Dominion University. Financial aid may be available in the form of University fellowships, tuition grants, and research assistantships. In addition to the financial aid offered by the University, graduate students may be eligible for aid and student loans administered by other agencies. For information about part-time employment, scholarships, and student loans, contact the Office of Student Financial Aid.
