

Biomedical Sciences Programs

The Biomedical Sciences program offers a comprehensive and rigorous education through three distinct tracks: a Research Master's, a Medical Master's, and a Ph.D. program. Each track is designed to prepare students for advanced roles in their respective fields. All courses emphasize hands-on, experiential learning through laboratory work, clinical case studies, and faculty-guided research projects. Graduates emerge with the practical expertise and academic preparation necessary to contribute meaningfully to biomedical innovation and healthcare advancement.

Programs

Master of Science Programs

- Biomedical Sciences - Medical Masters (MS) (<http://catalog.odu.edu/graduate/health-professions/biomedical-sciences/biomedical-sciences-ms/>)
- Biomedical Sciences-Research (MS) (<http://catalog.odu.edu/graduate/health-professions/biomedical-sciences/biomedical-sciences-research-ms/>)

Doctor of Philosophy Programs

- Biomedical Sciences (PhD) (<http://catalog.odu.edu/graduate/health-professions/biomedical-sciences/biomedical-sciences-phd/>)
