

Doctor of Nursing Practice

Nursing Practice with a Concentration in Post-Masters Pediatric Clinical Nurse Specialist (DNP)

Doctor of Nursing Practice

The Doctor of Nursing Practice program is designed for nurses that are seeking a terminal degree in nursing practice. DNP-prepared nurses are equipped to serve as clinical experts, change agents, and advocates in addressing healthcare in our nation. Specific areas of focus include: advanced practice skills, healthcare policy, organizational and systems leadership, interprofessional collaboration, evidence-based research, healthcare technology, informatics, and patient advocacy. The DNP program at ODU is fully accredited by the Commission on Collegiate Nursing Education (CCNE).

ODU offers seven concentrations in the DNP program. The number of credits required for the Doctor of Nursing degree varies by concentration and reflects specific courses and practicum requirements necessary for the specialty area of professional nursing practice. NURS 800 and NURS 809, incorporated into the MSN core curriculum, are required prerequisites for the DNP.

Refer to the School of Nursing (SON) website for more information: www.odu.edu/nursing.

Post Master's Pediatric Clinical Nurse Specialist DNP

Janice Hawkins, DNP Nurse Executive Program Director

Pam Bishop, Pediatric CNS Program Director

The Post Masters Adult Gerontology CNS Doctor of Nursing Practice (DNP) concentration has been developed to address a growing demand from advanced practice nurses. The program of study prepares students as expert clinicians in the application of evidence-based knowledge within the realms of nursing interventions, teaching, and research. This Post-Masters Clinical Nurse Specialist DNP program is targeted to licensed, registered nurses with an MSN.

The program requires course content in theory, research, and Pediatric CNS professional and clinical cores. The curriculum is designed to prepare nurses as Pediatric Clinical Nurse Specialists. Graduates of this program are eligible to sit for the American Association of Critical Care Nurses (AACN) Acute Care Pediatric (ACCNS-P) Exam. The Post Master's Pediatric CNS DNP is offered in an online/hybrid format.

Additional requirements include physical exams, CPR certification, immunization requirements, computer competencies and technical standards, background checks and urine drug screening.

To graduate from Old Dominion University's DNP Program, a student must have successfully completed all required course work, including prerequisite courses of NURS 800 and NURS 809, an evidence-based research project, and all clinical practicum.

Admission Requirements

Admission Requirements for the Pediatric CNS DNP

In addition to meeting University requirements, applicants must meet the admission criteria below.

1. Current, unencumbered license as a registered nurse (RN).
2. Master's degree in nursing or a related field from a regionally accredited college or university with a minimum of 3.0 grade point
3. Baccalaureate degree in nursing or related field from a regionally accredited college or university with a minimum of a 3.0 grade point average.
4. Three letters of recommendation, with at least one from a former faculty member and at least two from former employers.
5. A 500-700 word essay that should speak specifically to the concentration area to which you are applying.
6. Current Resume
7. Prior successful completion (grade of B or better) of the following courses in a previous APRN MSN program, preferred within 5 years of admission:
 - a. Advanced Pathophysiology
 - b. Advanced Physical Assessment
 - c. Advanced Pharmacology
