

Minor

Supply Chain and Maritime Logistics Minor

Overview

A minor in Supply Chain and Maritime Logistics is very versatile and applicable to any industry, enhancing your major with knowledge of global maritime supply chains. The minor can complement any major, creating a well-rounded and competitive profile for students interested in understanding the fast-paced world of maritime logistics as a fundamental part to international trade and the global economy.

Students with a major in Supply Chain and Maritime Logistics may not pursue this minor.

For more information, please contact Dr. Ricardo Ungo (rungo@odu.edu).
