Courses

Economics (ECON)

ECON 200S Basic Economics (3 Credit Hours)
The course presents an overview of the major principles of micro- and macromicroeconomic. Topics include opportunity costs, supply and demand, competition and monopoly, national income determination, creation of money and credit, and international problems. No credit will be given to students pursuing majors in the Strome College of Business.

ECON 201S Principles of Macroeconomics (3 Credit Hours)
Development of the theory of supply and demand, and their interaction in a market economy. Classical, Keynesian, and monetarist explanations of inflation and unemployment are presented and analyzed. Emphasis is placed on income determination, fiscal policy, monetary policy, and the issue of government efforts to improve economic performance.

Prerequisites: Qualifying math SAT/ACT score, qualifying score on the math placement test, or completion of MATH 102M or higher

ECON 202S Principles of Microeconomics (3 Credit Hours)
An examination of how individuals and businesses interact in a market economy. Emphasis is placed on consumer behavior, price and output decisions of firms, the economic efficiency of the resulting allocation of society's resources, and the gains from international trade and impact of trade barriers.

Prerequisites: Qualifying math SAT/ACT score, qualifying score on the math placement test, or completion of MATH 102M or higher

ECON 226S Honors: Principles of Macroeconomics (3 Credit Hours)
Open only to students in the Honors College. A special honors section of ECON 201S.

ECON 227S Honors: Principles of Microeconomics (3 Credit Hours)
Open only to students in the Honors College. A special honors section of ECON 202S.

ECON 301 Managerial Economics (3 Credit Hours)
Examines the application of economic theory and methodology to managerial decision making and strategy. Key topics are demand analysis, economic forecasting, production, cost analysis, the economics of organization, market structure and strategic behavior, pricing techniques, and government regulation and its implications for firm behavior. Emphasis is placed on the global context of managerial decisions.

Prerequisites: ECON 201S and ECON 202S and BNAL 206, in addition to a declared major at the University or permission of the Dean's Office

Pre- or corequisite: MATH 200 or equivalent

ECON 304 Intermediate Microeconomic Theory (3 Credit Hours)
Develops methods of microeconomic analysis beyond the principles level. Major emphasis is placed on consumer behavior and demand, production and cost, market organization, distribution theory, and welfare theory.

Prerequisites: MATH 200 or equivalent and a graded of C or better in ECON 202S, along with a declared major in the University or permission of the Dean's Office

ECON 305 Intermediate Macroeconomic Theory (3 Credit Hours)
Provides an overall 'big picture' of the economy, focusing on the central problems of unemployment, inflation, the business cycle, and economic growth. Important issues include national income accounting, fiscal policy, monetary policy, the money supply, the money market, interest rates, saving rates, labor markets, productivity, budget surpluses/deficits, trade deficits, and exchange rates.

Prerequisites: MATH 162M or equivalent, and a grade of C or better in ECON 201S and ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 311 Economics, Causality, and Analytics (3 Credit Hours)
To make sense of the modern world and evaluate information through the lens of economics, it is imperative to be able to understand economic data, how it is used, how to use it, and what conclusions can be drawn from it. This course will explore the idea of causal inference (understanding if and how X causes Y to happen) and how economists and researchers evaluate potential causal relationships. Students will learn about how economists think about causality conceptually as well as econometric techniques using data with the R statistical programming language.

Prerequisites: ECON 202S or equivalent

ECON 368 Internship (1-3 Credit Hours)
Supervised internship in economics. Approval for enrollment and allowable credits is determined by the department CAP advisor and the Career Development Services in the semester prior to enrollment. Credit for internship and practicum in economics may not both be applied to meeting requirements for the major.

Prerequisites: ECON 304 and ECON 305, along with a declared major at the University or permission of the Dean's Office

ECON 369 Practicum in Economics (3 Credit Hours)
Application of economic theory and principles to a practical problem of interest to a sponsoring community organization. (Qualifies as a CAP experience.)

Prerequisites: ECON 304 and ECON 305; BNAL 206 and BNAL 306, along with a declared major at the University or permission of the Dean's Office

ECON 395 Topics in Economics (1-3 Credit Hours)
A study of selected topics, the title of which will appear in the course schedule.

Prerequisites: ECON 200S and ECON 201S or ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 396 Topics in Economics (1-3 Credit Hours)
A study of selected topics, the title of which will appear in the course schedule.

Prerequisites: ECON 200S and ECON 201S or ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 400 Research Methods in Economics (3 Credit Hours)
Provides students with a set of practical skills useful in economic research and in the presentation of research results. Includes training in the use of various software packages, the Internet, and regression analysis for conducting economic research.

Prerequisites: ECON 201S, ECON 202S, BNAL 206, BNAL 306, and ECON 311, along with a declared major at the University or permission of the Dean's Office

ECON 402/502 Transportation Economics (3 Credit Hours)
A survey of the transportation system in the United States including its development, pricing, and regulation. Special attention is given to railroads, highways, pipeline, water and air transportation; and the roles that these modes of transportation play in economic development.

Prerequisites: ECON 202S (or ECON 200S and permission of the instructor) along with a declared major at the University or permission of the Dean's Office

ECON 545 Economic Development (3 Credit Hours)
A survey of economic development in the United States and other countries, focusing on the economic development of nations in terms of industrial growth, human capital, technology, and foreign aid.

Prerequisites: ECON 301S and ECON 305S, along with a declared major at the University or permission of the Dean's Office

ECON 567/667 Strategic Behavioral Management (3 Credit Hours)
Examines the behavioral science of management in various organizational settings and the ways in which employees and managers (and other stakeholders) influence strategic decisions.

Prerequisites: ECON 201S and ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 585/685 Business Economics (3 Credit Hours)
ECON 585/685 Business Economics (3 Credit Hours)
ECON 407W/507 Labor Market Economics (3 Credit Hours)
Economic analysis of various facets of labor markets. Emphasis is placed on the analysis of labor supply, labor demand, wage determination, earnings differentials and inequality, occupational choice, human capital investment, labor market discrimination, mobility and immigration, impact of unions, and unemployment. This is a writing intensive course.
Prerequisites: A grade of C or better in ENGL 211C or ENGL 221C or ENGL 231C, ECON 202S (or ECON 200S and permission of the instructor), along with a declared major at the University or permission of the Dean's Office

ECON 421/521 Public Economics (3 Credit Hours)
This course examines the interaction between government and the economy, with particular emphasis on the role of the federal government. Topics that address the motivation for government involvement in the economy include market failure, income inequality, and redistribution of income. Specific programs studied include Medicare/Medicaid, welfare programs, and the social security system.
Prerequisites: ECON 201S and ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 425/525 Introduction to Mathematical Economics (3 Credit Hours)
The course focus is on the use of differential and integral calculus, matrix algebra, difference equations and classical optimization theory in the presentation and development of economic theory.
Prerequisites: ECON 201S, ECON 202S, and MATH 200 or equivalent, along with a declared major at the University or permission of the Dean's Office

ECON 427/527 Industrial Organization and Public Policy (3 Credit Hours)
A study of market structures and the conduct and performance of business firms in different market structures. The emphasis is on the theory and measurement of industrial concentration and public policy responses to industrial concentration.
Prerequisites: MATH 200 or equivalent and ECON 202S (or ECON 200S and permission of the instructor), along with a declared major at the University or permission of the Dean's Office

ECON 431/531 Money and Banking (3 Credit Hours)
Examines the nature and functions of money and credit, the commercial banking system, the Federal Reserve System, the quantity theory of money, the theory of income determination, the balance of payments and exchange rates, and the history of monetary policy in the United States.
Prerequisites: ECON 201S and ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 435/535 Health Economics: A Global Perspective (3 Credit Hours)
This course introduces the student to the economics of health care and the application of health economics to health care problems, the issues surrounding those problems, and the potential solutions to those problems. The course will emphasize institutional features of the health care industry, the market for health care, the political economy of health care, and government involvement in the delivery of health care. Further, the course will survey the delivery of health care in other countries and provide a global perspective on selected health care issues such as AIDS, water and air quality, and the aging of the population.
Prerequisites: ECON 202S and a declared major at the University or permission of the Dean’s Office

ECON 436 Sports Economics (3 Credit Hours)
This course introduces the student to the economics of sports in America. The course will emphasize institutional features of the sport industry. Specific topics included are: sports franchises as profit-maximizing firms; monopoly and antitrust rules as applied to the sports industry; public finance of sports; costs and benefits of a sports franchise to a city: the labor economics of professional sports; discrimination in sports; and the economics of college sports. This course may not be applied toward the major in economics as an economics elective or toward the minor in economics or the M.A. in economics. (It could, however, be used as a non-economics elective for the major.)
Prerequisites: ECON 202S or equivalent and a declared major at the University or permission of the Dean's Office

ECON 444/544 Development of the American Economy (3 Credit Hours)
A study of the economic development of the United States from colonial times to the present. An analytical course concerned with the application of economic theory in the study of the growth and development of the American economy.
Prerequisites: ECON 201S and ECON 202S, along with a declared major at the University or permission of the Dean's Office

ECON 445W/545 Urban Economics (3 Credit Hours)
An analysis of the economic factors which give rise to the formation of urban centers and which contribute to the following problems: urban poverty, housing conditions, traffic congestion, and the fiscal crisis faced by modern cities. This is a writing intensive course.
Prerequisites: A grade of C or better in ENGL 211C or ENGL 221C or ENGL 231C, ECON 202S (or ECON 200S and permission of the instructor), and a declared major at the University or permission of the Dean's Office

ECON 447W/547 Natural Resource and Environmental Economics (3 Credit Hours)
Topics discussed include conservation and scarcity, market failure, fishery management, benefit-cost analysis, water resource development, environmental quality, recreation, energy, and marine resources. This is a writing intensive course.
Prerequisites: A grade of C or better in ENGL 211C or ENGL 221C or ENGL 231C, ECON 202S (or ECON 200S and permission of the instructor), and a declared major at the University or permission of the Dean's Office

ECON 454W/554 Economic Development (3 Credit Hours)
This course is intended to provide an introduction to the problems of economic development in the Third World, including the problems of economic growth, income distribution, poverty, urbanization, uneven development, agricultural policy, economic planning, industrial policy, trade policy, balance of payments, finance, and currency crises. To illustrate these issues we will examine the problems of certain individual countries, such as Brazil, Korea, Philippines, India, Mexico, Kenya, Indonesia, and Thailand. The course tries to strike a balance between economic theory and institutional economics. This is a writing intensive course.
Prerequisites: A grade of C or better in ENGL 211C or ENGL 221C or ENGL 231C, ECON 201S and ECON 202S; junior standing or permission of the chief departmental advisor; and a declared major at the university or permission of the Dean’s Office
ECON 455/555 Comparative Economic Systems (3 Credit Hours)
This course examines and compares different economies from around the world, including such economies as the UK, France, Germany, Sweden, Japan, India, Korea, Russia, and China. Students look at the economic growth, GDP per capita, unemployment, inflation, income distribution, economic efficiency, institutions, policies, industrial structure, legal infrastructure, and international trade of these economies. Students study the functioning of markets and the problems of market and government failure. The course addresses the question, what is the best way to organize society.
Prerequisites: ECON 201S, ECON 202S and a declared major at the university or permission of the Dean's Office

ECON 456/556 Economics of Information, the Internet and E-Commerce (3 Credit Hours)
Outlines the economic principles of information that underpin the Internet and e-commerce. Considers auctions, economies of scale and scope, data mining, price discrimination, product bundling, versioning, networking, the diffusion of innovations and intellectual property as they are utilized on the Internet and in e-commerce. Taught in a microcomputer laboratory.
Prerequisites: ECON 201S, ECON 202S and a declared major at the university or permission of the Dean's Office

ECON 494 Federal Reserve Policy (3 Credit Hours)
The course covers in detail the process of monetary policy making under varying economic conditions. Students research and analyze current and near-term economic conditions with a focus on forming a prediction regarding the future path of monetary policy. The course culminates with selected students' participation in the annual Federal Reserve Challenge competition.
Prerequisites: ECON 305, ECON 431, permission of the instructor, and a declared major at the university or permission of the Dean's Office

ECON 495/595 Selected Topics in Economics (1-3 Credit Hours)
Taught on an occasional basis. A study of selected topics, the title of which will appear in the course schedule.
Prerequisites: ECON 201S, ECON 202S, permission of instructor, and a declared major at the University or permission of the Dean's Office

ECON 499 Readings in Economics (3 Credit Hours)
Designed to provide the advanced student in economics an opportunity to do independent study under the guidance of a member of the faculty.
Prerequisites: ECON 201S, ECON 202S, ECON 304, ECON 305, senior standing, a declared major in Economics, and permission of the Chief Departmental Advisor
