Minor

Energy Engineering Minor

Sandeep Kumar, Department of Civil and Environmental Engineering, Coordinator

This interdisciplinary minor is for students who would like to learn about energy engineering fundamentals, socio-environmental impacts of energy systems, and novel energy engineering technologies. The minor will enhance students' abilities to integrate knowledge from different disciplines with concepts used in energy engineering and offer students the opportunity to be recognized for study in this growing interdisciplinary field.

Requirements

The interdisciplinary minor requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. The course requirements are as follows:

]	Four courses chosen from:		12
	CET 355	Sustainable Building Practices	
	CEE 458	Sustainable Development	
	CEE 459	Biofuels Engineering	
	ECE 303	Introduction to Electrical Power	
	ECE 403	Power Electronics	
	ECE 471	Introduction to Solar Cells	
	ECON 447W	Natural Resource and Environmental Economics	
	EET 340	Transmission Networks	
	EET 370	Energy and The Environment	
	EET 483	Introduction to Smart Grids	
	EET 485	Electrical Power Systems	
	ENMA 301	Introduction to Engineering Management	
	ENMA 302	Engineering Economics	
	MAE 411	Mechanical Engineering Power Systems Theory and Design	
	MAE 413	Energy Conversion	
	MAE 416	Introduction to Solar Energy Engineering	
	MET 300	Thermodynamics	
	MET 450	Energy Systems	
	MET 471	Nuclear Systems I	
	OEAS 415	Waves and Tides	
	PHYS 415	Introduction to Nuclear and Particle Physics	

One course relevant to energy engineering from the student 's major can also be used as a minor course with the approval of the minor coordinator.

For completion of the minor, students must have a minimum overall grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisites. At least six hours of the required 12 must be taken through courses offered by Old Dominion University.
