Old Dominion University’s Strome College of Business has as its principal objective the preparation of liberally educated specialists who will enter the challenging world of business and public administration. All programs in the College are designed to promote the following: professional competence; facility in the communication arts; analytical skills; leadership abilities; an understanding of social, political, and economic forces; and a strong sense of business ethics and public purpose. This foundation enables graduates of these programs to advance in a broad range of careers in the public and private sectors.

The Strome College of Business is one of approximately 870 schools in the world to have achieved accreditation at the graduate and undergraduate levels by the Association to Advance Collegiate Schools of Business – AACSB International. The undergraduate and graduate accounting programs have received their own accreditation through the same agency. In addition, the Master of Public Administration program is one of approximately 164 graduate programs certified as meeting the standards of the National Association of Schools of Public Affairs and Administration (NASPAA).

Undergraduate students may pursue majors and special concentrations in accounting, business analytics, economics, enterprise cybersecurity, entrepreneurship, finance, information systems and technology, international business, management, maritime and supply chain management, marketing, personal financial planning, real estate, and risk management and insurance. The College offers graduate programs in accounting, business administration, economics, maritime trade and supply chain management, and public administration. Additionally, the College offers a joint master's degree in computer information science with the Computer Science Department. Information about the graduate programs is available in the Graduate Catalog.

The Harvey Lindsay School of Real Estate at ODU embraces a comprehensive multi-disciplinary approach to real estate education. The faculty bring real-world experience to the classroom to engage students in a curriculum that will assist in developing the analytical and professional skills necessary for a career in real estate or economic development. Students enjoy access to research programs involving real-time development issues in the Hampton Roads community, as well as internship opportunities throughout the region and beyond.

The Harvey Lindsay School of Real Estate has been an affiliate of the Appraisal Institute of America since 1986 and a full member since 2001. Its Master of Science in Real Estate program is now one of approximately 450 graduate curricula in the disciplines of professional financial planning and risk and insurance. In addition, it provides for active involvement with the Eastern Virginia financial services community as a placement, research, consultative, and resource agency. The center further supports educational programs and seminars for the profession including a professional development program for practitioners that leads to the designation of Professional Financial Planner (PFP).

Thurmond Negotiations Lab
The core mission of the Lab is to provide negotiation, sales, and communication skills education. Specifically, the Thurmond Negotiation Lab serves four communities: (1) practitioners, (2) the local community, (3) ODU students and (4) academic scholars. The Lab is a boundary-spanning organization that engages in customized training sessions, hosts events, and provides research opportunities related to negotiation, sales, and communication skills. A core value of the Lab is to empower women and minorities through customized negotiation skills education.

E.V. Williams Center for Real Estate
The mission of the E.V. Williams Center for Real Estate is to connect the multi-disciplinary analyses, innovative curriculum and research underway at Old Dominion University with students, industry and the public sector interested and engaged in the real estate and economic development communities. By hosting topical seminars on key development issues and working closely with real estate and economic development professionals, the E.V. Williams Center builds relationships throughout the community, to facilitate research, growth and development. The E.V. Williams Center publishes annual real estate market reviews on the office, industrial, retail, single family and multi-family real estate markets and sponsors the Hampton Roads Real Estate Market Review and Forecast.

Distance Education
The college offers several degrees online through Distance Learning to students throughout the state of Virginia and beyond. Usually students complete their general education program in a community college and transfer to Old Dominion University to complete the degree requirements. Bachelor of Science degrees in accounting, finance, information systems and technology, management, and marketing are available through different delivery technologies. Minors in several disciplines are also available.

Bachelor of Arts - Economics
The Bachelor of Arts in Economics has been discontinued. Continuing students must earn their degree by the end of spring semester 2025. This program is not available for students entering Old Dominion University in fall 2020 and subsequent semesters.
